# **10EV Series**

# High Voltage Fuses - Rated 500 V DC

## **Description**

10EV fuses comes in six configurations. Each version of the cylindrical low-voltage, high-current fuse employs diffusion pill technology to provide time-delayed protection to circuits in EVs and hybrid passenger vehicles. Ask Littelfuse which configuration best meets your needs.

#### **Features & Benefits**

- Interrupting Rating of 20 kA @ 500 V DC
- Operates from -40 °C to +125 °C
- Voltage Rating of 500 V DC
- Typical weight of 9.5 g
- Mounting Torque M5 of 4.5 ±1 Nm (ISO prescription for ZXISO and ZXBDP versions)
- Melamine body with UL 94 flammability ratings of V-0
- Terminal in tin plated copper allov
- End caps in nickel plated brass
- Refers to ISO 8820-8
- Available in cartridge version

## **Specifications**

| Voltage Rating:                           | 500 V DC  |
|---|---|
| Interrupting Rating:                      | 20 kA @ 500 V DC  |
| Recommended Environmental<br>Temperature: | –40 °C to +125 °C   |
| Terminals Material:                       | Tin-plated copper alloy                                   |
| Housing Material:                         | Melamine body<br>(UL 94 Flammability rating of V-0)       |
| End caps Material:                        | Nickel plated brass                                       |
| Mounting Torque M5:                       | 4.5 ±1 Nm (ISO prescription for ZXISO and ZXBDP versions) |
| Typical Weight per Fuse:                  | 9.5 g   |
| Comply With:                              | ISO 8820-10:2020  |

# **Ordering Information**

| Part Number    | Termination       | Package Size |  |
|----------------|-------------------|--------------|--|
| 10EVxxx.ZXC    | CARTRIDGE         | 320          |  |
| 10EVxxx.ZXISO  | BOLT DOWN (ISO)   | 320          |  |
| 10EVxxx.ZXPY   | BLADE             | 320          |  |
| 10EVxxx.ZXBDP  | BOLT DOWN (AXIAL) | 320          |  |
| 10EVxxx.ZXPCB  | PCB MOUNT         | 320          |  |
| 10EVxxx.ZXPCBL | PCB MOUNT (LONG)  | 320          |  |

<sup>\*</sup> Products in development - Final values for voltage drop, resistance, melting I²t and T/C curves will be generated from PV tests data. Please contact Littelfuse® for more details regarding availability timing.

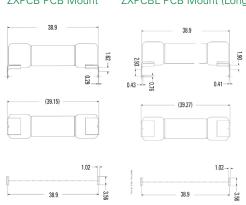

Note: The typical I²t is an average value calculated from the breaking capacity tests by using the melting time before the arcing occurs.

### **Dimensions**

Dimensions in mm. Please refer to the outline drawing for dimensions and tolerances.
