

# EPC SERIES POWER DISTRIBUTION MODULES

## SEALED INTERNALLY BUSSED CONNECTORIZED

The Standard EPC is an internally bussed, connectorized, sealed power distribution module, suitable for mounting in rugged commercial vehicle applications. The EPC is a product that has dense concentration of high power circuits and accepts plug devices like automotive fuses, diodes and relays to protect and control complex electrical systems. An internally mounted Printed Circuit Board (PCB) allows bussed connections to a large number of devices.

### Features and Benefits:

- Sealed to IP67/IP69K
- Can Hold a Compacity of 27 Mini Style Fuses
- Two Seperate Power Input Buses
- Uses 3 Form C 280 and 6 Form A 280 Series Relays
- Delivered Empty for Easy Custom Loading
- Lid Includes 5 Spare Fuse Locations
- Sealed to IP67/IP69K

### Ordering Information

PART NUMBER	DESCRIPTION
LFLX0006Z-01	Connectorized Power Distribution Module with IP67/IP69K

The EPC can be built specific to your design requirements and is a special order product.
